

## IT – Senior Developer Role

Organisation: UK NARIC

Location: Cheltenham, Gloucestershire, UK

Hours of Work: 8.30am-5.00pm / 9.00am-5:30pm Monday to Friday 37.5 hrs/week

Salary: £38-42k per annum (dependent upon experience) plus Benefits

UK NARIC is the UK's National Agency responsible for providing information and expert advice on international qualifications and skills.

We are looking for an experienced developer to join our IT team in a dynamic and expanding business.

This is a fast paced, technical role in a friendly environment. As part of the IT team, you will provide: key developmental support to the business; work with internal and external clients to design and implement technical solutions; and front-line technical support for all staff.

### Responsibilities:

Principally, the successful candidate will provide front-line technical support and guidance for the business to both internal users and external clients and to assist the IT department in support of the operational and information needs of the business.

#### 1. Design and development

Leading on the design and development of technology systems for internal and external clients which meet project goals and specifications in terms of time, cost and performance.

#### 2. Programming support and guidance

Delivering and ensuring high quality technical and programming skills in HTML, CSS, C#, .NET Framework: ASP (and classic ASP) & Windows Forms, JavaScript, SQL, AJAX and W3C, and adopting new languages and frameworks where appropriate.

#### 3. Database development and data analysis

Designing and outputting internal reporting solutions to meet business requirements; understanding client requirements and creating accurate data extracts to specification.

### Applicant requirements

- Excellent team working skills
- Excellent communication and customer service skills
- Experience of working in a technical role within a busy office-based environment
- Flexible and adaptable with a proactive and positive attitude
- Professional, courteous manner
- Ability to thrive and remain calm, polite and patient in high-pressure situations

### PERSON SPECIFICATION

**Please Note:** Applicants must have permission to live and work in the UK

**Essential:**

- Proven knowledge and experience of understanding user requirements
- At least four years' experience working in software development
- HTML, CSS, ASP, .NET, C#, OOP, JavaScript, AJAX and W3C
- Technically minded with strong problem solving & analytical skills
- Fluent English Language Skills verbal, written, listening and comprehension, minimum standard IELTS 6.5
- Experience in development project management
- Able to organise own workload effectively and prioritise tasks
- Able to work closely and communicate effectively with colleagues at all levels
- Assertive, professional and credible when liaising with external clients

**Desirable:**

- A Degree from a UK University
- Microsoft Certified Professional Developer (MCPD)
- Knowledge of databases – particularly MS SQL and TSQL
- Knowledge of MVC
- Exposure to AZURE platform
- OOP experience in C# and testing techniques
- Knowledge of MS Dynamics CRM
- Knowledge of other statistical analysis tools (SAS, SPSS, R, SSRS, etc...)

If you think that you have what it takes to join us, please forward your CV, with a covering letter and details of two referees to [recruitment@naric.org.uk](mailto:recruitment@naric.org.uk)

**Interview Date:** Suitable candidates will be interviewed ASAP via video call.
