

Chartered Institute of Building (CIOB)

Benchmarking the MCIOB

Understanding the Client's Aims

In order to facilitate greater recognition of their Member designation, and consequently enhanced mobility for their Members, the CIOB wanted to understand how their designation compared to national qualification levels in the UK.

The UK NARIC Approach

A thorough review of the requirements and pathways to CIOB Membership represented a crucial first step in the evaluation process. Through an in-depth evaluation of the CIOB's Professional Review, UK NARIC was able to identify areas of comparability with national qualification framework levels in the UK.

Delivering Quality Results

In addition to the providing the CIOB with an in-depth evaluation report, UK NARIC was able to **disseminate the findings** of the project to its member organisations and offer its MCIOB holders a [Statement of Comparability](#) thereby **helping the CIOB to increase awareness of its provision among key education stakeholders and promote recognition for its members both in the UK and internationally.**
