

Are you applying for a blue, gold or black CSCS, LISS or JIB-PMES card?

Are you applying with overseas qualifications?

You need the **Statement of Comparability for Construction Skills with Skills Mapping**. This will compare the content of your qualification to UK occupational standards and confirm that it is genuine.

The steps below show the process to obtain this Statement.

**1.** Create an account at [www.naric.org.uk/register](http://www.naric.org.uk/register) and order a **Statement of Comparability for Construction Skills with Skills Mapping**.

**2.** On the user portal, upload your:

- Final certificate
- Transcripts
- Translations

Send copies/scans,  
NOT originals

**3.** Send the Stage 1 Form to your Training Centre and upload the completed form, once returned, to your online account.

**6.** We will review the material received by your training centre and if there is enough information to fulfil the mapping part of the service, you will then be asked to make the Stage 2 payment of £345.00 (£414.00 Incl. VAT).

**5.** UK NARIC will then send you the relevant Stage 2 form via email.

You will need to send this to your training centre.

Your training centre sends this form back to UK NARIC directly.

**4.** We will review your application and if your qualification is eligible for the service you will be requested to make the Stage 1 payment of £50.00 (£60.00 Incl. VAT).

**7.** Your Stage 2 application will now be in progress.

UK NARIC will begin mapping your qualification against the UK National Occupational Standards for your chosen Occupation, and carry out a primary source verification check.

**8.** Once the mapping and the verification is complete a formal assessment will be sent to you via the post.

The 'Next Steps' section on the report will give you guidance on whether you can present this directly to CSCS/LISS/JIB-PMES, or if you are required to do any additional training to meet the required UK standards for your chosen occupation.
